

# WORK CREDIT SENTENCE REDUCTION

\*\*\*Time is calculated daily and may be available to the public after 2:00 pm.\*\*\*

Work credits are earned at the rate of 2 days reduction for every 1 day worked. Before an inmate may begin work, they must be sentenced on all charges, cleared by the Medical department, and assigned a job either inside the facility or off site. Jobs are assigned according to the facility's need as well as the work profile provided by Medical.

This credit is in addition to any good time credits earned.

Work credits may be denied by sentencing judge.
